Spritzing Directions:

- Use a Stampin' Spritzer and pour rubbing alcohol in the container...about 3/4 to almost full.
- Add 5-7 drops of ink refill.
- Screw top on the spritzer and shake well.
- Begin spritzing the box. You will probably use the entire solution.
- Leave box to dry. It doesn't take long to dry, maybe 30 minutes. If you're not satisfied with desired color, you can spritz again.
- Once box is dry, you can embellish.
